Major Elite Basic Model

Colorways

red/charcoal

sky blue/navy

designed for children with special needs

Maclaren recommends expert opinion as to the suitability of the product for your child.

The Major Elite has been developed to meet the demand for an everyday buggy for children, who, as a result of disability, have a need for a portable, parent-wheeled transport. The model is supplied in basic format, but numerous accessories can be purchased for added comfort.

The Major Elite basic model is sturdily built with a square-section, aluminium chassis and 7" wheels to withstand years of rugged service. It features swivel front wheels and square grip handles.

A three position detachable footrest, brakes and a five point safety harness all come as standard.

Specially developed for disabled children. Sturdy but lightweight, anodised aluminium frame with hard-wearing, easy clean fabric

Weight – 6.75kg basic weight (7.5kg with footplate)

Tested to 50kg

Easily folded to 46" x 9-3/4" x 8-1/4" (117cm x 25cm x 21cm)

Fully swivelling front wheels for easy manoeuvring

Brakes on each rear wheel

Positive-lock safety catches

Supplied complete with detachable rigid footrest

Storage

The Maclaren 3D umbrella folding action for the Major Elite Buggy creates ease of handling and storage.

* The Instruction Manual contains clauses that limit the buggy's use to children that do not require postural support. Maclaren recommends expert opinion as to the suitability of the product for your child.
